

DECEMBER 2022 HONORED ANGEL

Brynley Kolleen Robbins

Brynley Kolleen passed away at 25w three days and was born sleeping at 29w 1day at 3:32 pm right after her twin brother, Greyson Michael.

They were born at Riverside Regional Medical Center in Newport News on July 5th. Brynley weighed 436 grams and was 8 inches long.

In November of 2021, we suffered a miscarriage with our first child. While we never expected to get pregnant so soon after, we also never expected to be blessed with twins. We were over the moon when we learned we were expecting a boy and a girl.

At our 20-week ultrasound, we discovered that Brynley was small but stable. A follow-up ultrasound three weeks later, she still hadn't grown much but was still stable. At another follow-up ultrasound, we were informed that our baby girl had severe fetal growth restriction. After meeting with various doctors, we decided to be admitted to Sentara Norfolk General for monitoring and possible early delivery.

On June 8th, we received the worst news possible, our little girl's heart had stopped beating. We were (and still are) beyond devastated after losing our daughter.

We are so blessed and thankful that Brynley's twin is here and thriving. Greyson is a sweet, handsome little boy. While we still mourn the dreams we had for both our children, we are thankful every day that we still have our little boy.

We want to thank Kate and the Weighted Angels team for their support, resources, and love. We would not have made it through this without their help.

Meg, Corey & Greyson Robbins
